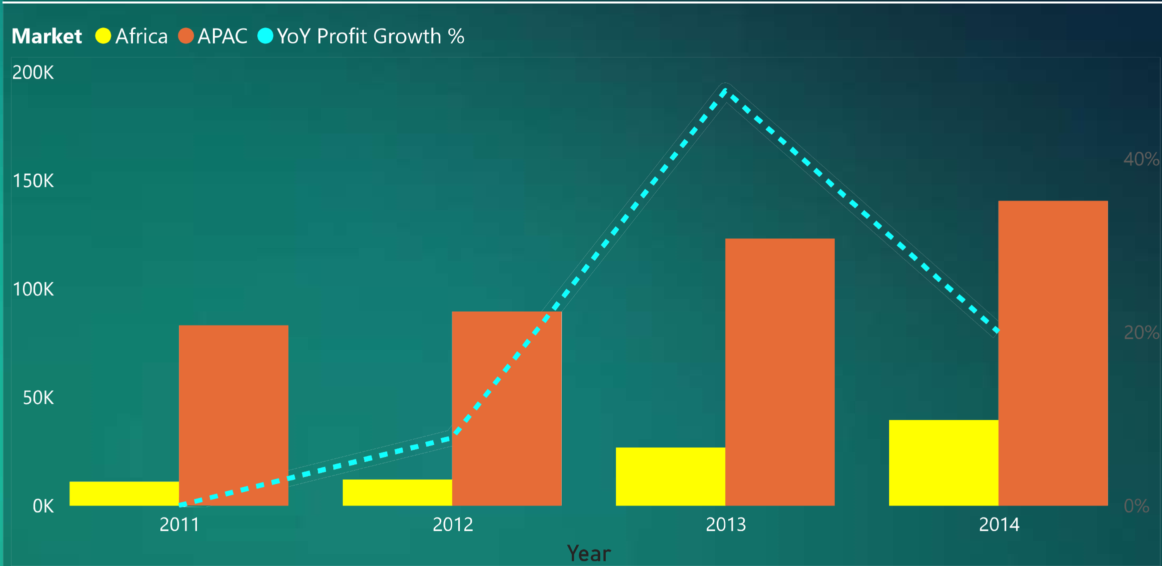
Total Profit and YoY Profit Growth % by Year and Market



The Opportunity: Growth vs. Volume

- **The Lead: APAC** is our cash cow (Volume), but **Africa** is our rocket ship (Growth).
- **The Stat:** Africa hit **124% YoY profit growth in 2013**—the highest in the portfolio.
- **The Play:** Protect the APAC baseline, but pivot expansion capital to Africa now to capture that momentum.

The Risk: APAC Discount Strategy

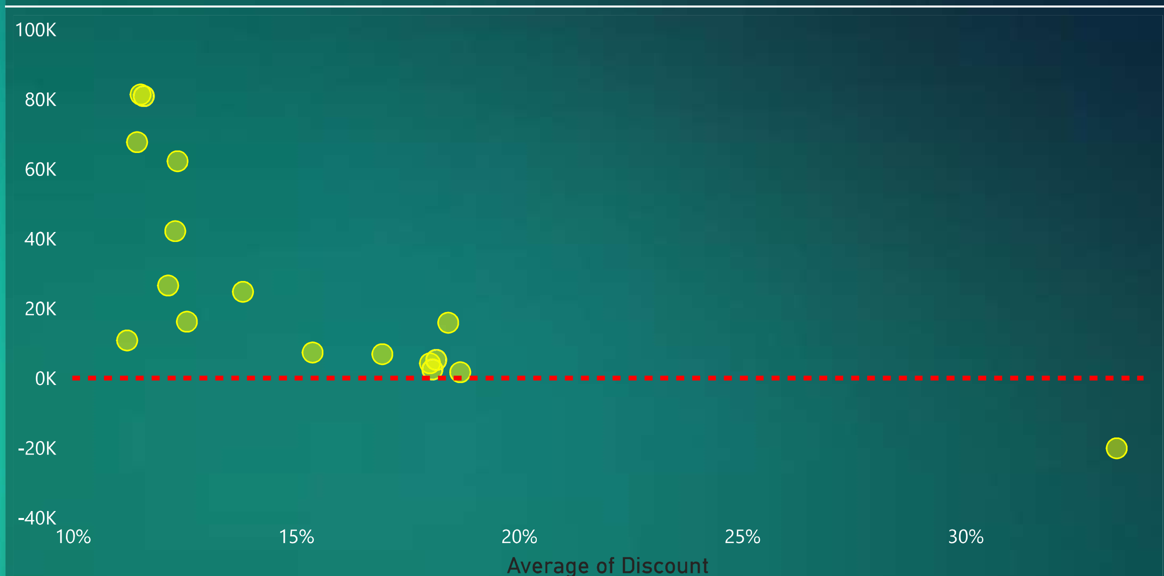
Average of Discount and Total Profit by Sub-Category



Key Finding

1 APAC drives strong revenue growth

2 Tables sub-category lost **64K**

3 Discounts above **20%** correlate with negative profit

4 Margin leakage concentrated in Furniture

The Decision: Executive Action Plan

Pillar One: The "Stop the Bleeding"

CAP DISCOUNTS (APAC)

Limit Table discounts to 15%. This stops the $64K loss and turns APAC Tables back into a profit center immediately.

Pillar Two: The "Fuel the Fire"

SCALE momentum (AFRICA)

Shift 20% of budget to Africa. Capitalize on the 124% YoY growth before competitors move in

Pillar Three: The "Trim the Fat"

AUDIT EMEA OPERATIONS

90-day review of EMEA supply chain. If profitability doesn't hit 5%, begin a strategic exit to save resources.
